BioCer

Flex SET

Haemostatic Powder + FlexApplicator
Malleable, efficient and varied

Haemostatic Powder

- Treatment of diffuse and localized bleeding
- For bleeding around suture lines
- Substitution of fibrin glue for haemostasis in vascular surgery
- Substitution of bone wax in bone bleeding
- Reduction in the need for electrocautery and associated tissue damage
- Use with compatible filter cell-savers

HaemoCer™ FlexApplicator

- Longer applicator for bleeding sites that are difficult to access
- HaemoCer™ FlexApplicator is bendable at several points at the same time and dimensionally stable to reach even difficult surgical sites
- The transparency of the applicator enables a clear view to the amount of HaemoCer™ powder applied, therefore a controlled and pinpointed application is guaranteed
- Even after multiple bendings the powder freely flows through the applicator
- Atraumatic applicator tip prevents surgical lesions
